

After Hours Care

At River Bend Medical Associates, your health is our priority. We work with local urgent cares to ensure that you have access to after-hours care. Our on call physician can provide an after hours phone consult, but urgent care facilities allow for a medical assessment. Urgent care facilities offer many of the services that an ER can, and they can treat non-emergency conditions more efficiently. By calling our on call physician first, you can work with the physician to determine whether you can wait to be seen during our business hours or whether you should pay a visit to one of the following urgent care facilities:
